PROJECTS

Influencer Simulation

📅 2022 - Ongoing 📍 Columbia, SC

I am in the process of creating a program that simulates a month-long timeline of being a modern day social media influencer.
- Front-End written with Java

Criminal Tracking App

📅 2020 📍 University of South Carolina

I worked with a team of three other student developers to create an application that allows a user to create and sign in to an account giving them access to a variety of profiles on different (faux) criminals, crimes, and different crime attributes.
- Used code sharing through GitHub
- Written with Java
- Information written to JSON files
- Utilized the SCRUM project development model
- Interviewed (faux) stakeholders for application requirements.

EXPERIENCE

Style Consultant

Target

📅 2022 - Ongoing 📍 Columbia, SC

Target Corporation is an American big box department store chain. It is the eighth largest retailer in the United States.
- Partner with team members to complete daily tasks
- Utilize Zebra Mobile Devices to assist guests

Sales Associate

Kohl's

📅 2018 - 2020 📍 Myrtle Beach, SC

Kohl's is an American department store retail chain. As of December 2021, it is the largest department store chain in the United States.
- Partner with team members to complete daily tasks
