PROJECTS

ASCII Dungeon Crawler | *C++17*

- A terminal-based dungeon crawler in C++. Move around the board with “w/a/s/d” keys and defeat all enemies to win.

My Little Library | *Java, Spring Boot, Spring Data JPA, PostgreSQL*

- A RESTful API for tracking a collection of books and their authors with layered architecture (controller/service/repository), DTO-based request/response contracts, and centralized error handling.

ReactionPic | *Python, Railway, GitHub CI*

- A Discord bot in Python that returns a random reaction image from a curated array in response to a user-initiated slash command.
- Deployed and hosted the bot on Railway, implementing CI/CD with auto-deploys triggered on every push to GitHub.

WrongLane | *Unity*

- A 2D side-scroller game where the player must switch lanes with arrow keys to avoid obstacles on the road.

SKILLS

Programming Languages: Java, JavaScript, Kotlin, SQL
Frameworks & Tools: VS Code, Git, Unity, JetBrains IDEs, React, Spring Boot, Maven, Vite, Grok Bot, Claude, Docker, MongoDB
